## What's New

- The Customer Cost Centre field is expanded from 20 characters to 35 characters.
- Hitting <F5> in the existing customer cost centre popup will pop up a list of predefined cost centres for a customer. If the user enters a customer cost centre manually it is added to the list, if it does not exist.
- If a user has a security 9 in security option 39, the user can edit/delete predefined customer cost centres by hitting <F4> in the popup.
- Invoice/invoice history summary by cost centre now includes the GST for the cost centre.

## Description

• The existing Customer Cost Centre popup input field has been expanded to 35 characters from 20 characters. A "?" lookup button is displayed to the right of the input box for lookup.

Ok	

• If the user manually enters a customer cost centre that is not in the pre-defined list, it will be added to the list for that bill-to customer. The pre-defined list is always sorted alphabetically.

• If the user hits <F5> or clicks the "?" button, a list of pre-defined customer cost centre is displayed. The user can highlight one of the existing cost centres and click "OK" to select it. Or the user can hit "Cancel" to close the popup without selecting a cost centre.
